EXPERIENCES

Tensei Philippines Inc.

Junior Software Engineer | September 2023 - Current

- Developed and integrated new functionalities into existing systems using VILT stack technologies.
- Seamlessly integrated IoT devices into the existing systems through third-party software solutions.
- Utilized Google Cloud Platform (GCP) for the deployment of software.
- Conducted thorough unit testing and created test cases to ensure the quality and reliability of software components.
- Provided development support and troubleshooting assistance to the team.

Tensei Philippines Inc.

Internship & Part time | March 2023 - August 2023

- Assisted in the development and design of the user interface.
- Writing, testing, and documenting code.
- Rapidly adopted and applied new technologies as needed for the project's requirements.
- Assisted in debugging issues, implementing solutions to ensure smooth application performance.

Freelance Embedded System Developer | 2022 – 2023

- Independently worked on embedded system projects, demonstrating a strong understanding of Arduino programming.

Technical Skills

- Computer Hardware Knowledge (Assembly, Maintenance).
- Front-End Development (HTML, CSS, JS, Sass, Bootstrap, React Native, Vue JS, Tailwind CSS).
- Back-End Development (Java, Laravel, PHP).
- Embedded Programming (C, C++, Arduino, Raspberry Pi).
- Database (MySQL).
- Tools & Platforms (Git, GitHub, Google Cloud Platform, Figma, Postman API).
- CMS Platform (Wix, Wordpress).
- Software Testing (PHPUnit)
- Agile methodologies.
